

The Other

Bridge

Look at me I am the other
I have a name and a story to ponder
Just like you I was made with wonder
I am sitting in your midst
Wishing I was on your list

Verse 1

I have been told I am asking way too much oh no
Dare to hold onto hope and dream aloud
Bear my pain to the light and disrupt the show
Stop the lies and denials that please the crowd

Chorus

Hey, my name isn't the other
I have a story just in case you wonder
Just like you I was made with wonder
I am sitting in your midst
Wishing I was on your list

Verse 2

I am on that road best known to strip down the fears and the lies
Trying to live in truth and be set free by love
Taste the peace that last and heals my wounded soul
Trade these shackles of comfort some may count as I
