

Back To Life

Verse 1

Should we stop the clock?
Breathe a little
And take a stock of our lives
Could we park in this lot ?
And roll down the windows and take it slow

Chorus

And come Back to life
beholding the stars that light up the sky
Freed candle lights
Tonight as we look in each other's eyes

Verse 2

Why don't we free up our minds
Leave the saddle and grow the spine to realign
With the great i am
And lookout the window and feel the real show

Bridge

To hell the timelines and chains of Babylon
To hell, the storylines that only lift our own
To hell the paradigms that give us hearts of stone
As we look into each other's eyes.
