

Spark

Chorus

You are more than just another melody
You're stuck inside my head
You are one with me
You inspired me and now all the world
Can see, you lit a spark inside of me

Verse 1

I thought I'd seen it all, then your scars played the music
How could I have known?
I thought I'd felt it all, then you played a new minor key
How could I have known?

Pre-chorus

You awaken me in ways I knew not I should be
You enliven me in ways I knew not I could be

Verse 1

I thought I heard it all, up until you sang your story
How could I have known?
I thought I'd dreamt it all, till you hummed your hopes to me
How could I have known?

Pre-chorus

You awaken me in ways I knew not I should be
You enliven me in ways I knew not I could be
Oh oh oh
