

When the Music Stops

Verse 1

20 years
Or just a little older
When we fell head over heels and
Matter, Time and space stopped
As we loved beyond ourselves

Verse 2

40 years
Of memories together
All the ups and downs, goosebumps and frowns we face along road
As we love beyond ourselves

Chorus

When the music is over
And the children are older
This ride with you would have been worthwhile

Verse 3

Love over fears
Has guided us forever
As we met the storms, the falls, the wounds, the scorns along the slopes
As we loved beyond ourselves

Verse 4

One thing is clear
You help me become better
As I fight my own demons you held my hands and prayed for me
As we love beyond ourselves
